

GARDEN CLUBS GOOD IN PEACE

Speakers At Joint Meeting
Urge Cultivation of
D. C. Land.

A peace back-to-the-farm movement was advocated at a joint meeting of the Garden Clubs of Washington yesterday.

"Women in agriculture will not take jobs away from the returned soldier," Mrs. William H. Hubert, director of the Woman's Land Army, said, "for the returned soldier is saying he had enough of the land in the trenches. He prefers to remain in the city, and this is leaving endless opportunities for women trained along agricultural lines."

Cultivate D. C. Land.
W. R. Beattie, extension horticulturist, Department of Agriculture, said: "It is essential to keep up the kitchen garden organizations. If they are good in war times they are good in peace times. Thousands of acres of garden land in the District should be cultivated."

The representative of the Department of Agriculture, I. G. Christie, Assistant Secretary of Agriculture, spoke of the \$1,000,000 worth of garden product that the Washington gardens had raised last year. He encouraged the amateur farmer.

Albert Douglas, executive officer of the Capital Garden Club, presided. Approximately 300 were present to continue the work of the Washington Garden Club this year. Contributions may be sent to Mrs. Fredrick Brooke, treasurer.

Declare Evolutionists Are Bolsheviks of Science

Extreme evolutionists were denounced as Bolsheviks of science by the Rev. Edward C. Phillips, S. J., in an address on "The Theory of Evolution," at a meeting last night of the Gonzaga Extension Class at Gonzaga College.

"That man is not evolved from the ape is now generally admitted by all first class scientists," he declared. "Scientists tell us he comes from some unknown animal, in some unknown way, but I believe that man comes from immortal God."

"FAKE" ASPIRIN — WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum Powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dose.

Aspirin is the trade mark of Bayer Manufacturing of Monoaceticacid of Salicylicacid—Adv.

Interest Grows in Salesmanship Club; Contestants Who Join Before March 22 Have Best Chance of Getting Prizes

CONTINUED FROM PAGE ONE

one of the smaller prizes, but if you have any intention of winning one of the best prizes, you should enter your name before March 22.

For the past week the standings have been changed each day late in the afternoon, but hereafter the corrections will be made and votes added at 2 o'clock in the afternoon for the following day's list.

The remaining days of this week and next week should be the best time for candidates to secure subscriptions as each \$19.20 worth of new subscriptions count for a special ballot of 55,000 votes. All the new subscriptions turned in by each candidate will be totaled and a special ballot of 55,000 votes will be issued to each candidate who secures this amount of new subscriptions. Of course, \$38.40 would bring 110,000 extra votes and so on. The more ballots you earn, the more votes you will have to add to your list.

There is plenty of room in each of the ten districts for candidates to enter the race and now is the time to do it. All that is necessary is to order to join the Salesmanship Club to be sent in your name to the club headquarters and all the printed matter and receipt books will be mailed to you. Of course, if you can call, so much the better. Or if you do not find it convenient to call, just telephone Main 3300 and ask for the club editor of the Salesmanship Club.

Meat: Russia and the Allies

Russia crumbled away and failed the Allies largely through lack of food, according to an American eyewitness.

With plentiful reserves and resources virtually untouched, her people starved at home and at the front because there was no adequate organization to place food where it was needed.

Animals on the hoof were shipped thousands of miles to the various fronts, wasting transportation facilities required for other purposes. They arrived shrunken and emaciated, to be killed and dressed amidst filth and confusion behind the lines. Half of those brought from Siberia, it is said, perished on the way; many more were unfit for food.

On the other hand, the American packers turned live stock into meat in large sanitary plants located in the producing sections, and shipped the product under refrigeration so that it reached the trenches in France in perfect condition, without waste.

Says Our Authority:

"Had such facilities for cold storage transportation been available to the Russian supply committee as were placed at the disposal of the quartermaster of the United States by Swift & Company, there might have been a different story concerning Russia's part in the final drama of the war."

A large-scale packing industry would be an asset to Russia, in war or in peace, as it has proved to be to the United States.

The cost of this large scale industry in the form of profits is only a fraction of a cent per pound of meat.
